Tough Tek Maintenance Screens

Lansing Housing Products is proud to announce that our Tough Tek are now U.S. Patent Number 9,917,784. Tough Tek Screens exceed the UFC & ASTM F2090 standard of withstanding 60 pounds of static weight. Tough Tek Screens are designed to break that constant cycle of window screen maintenance and repair. Ideal for public housing and multi-family housing projects, these stainless steel screens fit into most standard window screen tracks and are available in any of the twelve color options shown below.

- ◆ Added security
- ◆ Reduces maintenance
- ◆ Increases window safety
- ◆ Aluminum Frame
- ◆ Tig Welded Corners
- ◆ Stainless Steel Screen
- ◆ Easily removed for emergency access
- ◆ 10 year manufacturer's warranty against defects

**Our Tough Tek Metals have helped reduce affordable housing maintenance costs by up to 98%!
Fix it and forget it with Tough Tek Metals from Lansing Housing Products.**

Many more styles to choose from

LHP's all-steel security storm and screen doors, as well as our 20ga entry doors, reduce maintenance cost and last longer than box store brands. When your maintenance departments are struggling with budget allowances, count on LHP heavy duty doors to reduce your maintenance cost.

Providing products for public & family housing with security and durability in relation to current budget restraints

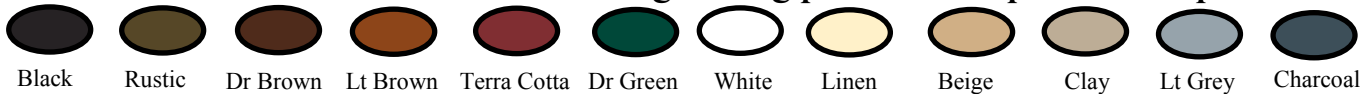

Actively working with the National Association of Child Window Safety

Our Tough Tek Maintenance screens are endorsed by the National Association for Child Window Safety

LHP offers 12 standard colors in our long-lasting powder coat paint on all products.
